

## **Zenolite® - Practical, easy to use Edge Profiles.**

Zenolite panels can be linked together or edge profiled using a variety of existing aluminium profiles specifically designed for the Zenolite 6mm product.

The standard range of Zenolite profiles will suit almost every application, and can assist with that extra quality touch.

### **SINGLE PANEL PROFILES**

### **MULTI PANEL PROFILES**

Made from durable and long lasting anodised aluminium, Zenolite edge profiles are simple to use and being custom made for the Zenolite product, means that there are no sizing issues. All anodised aluminium edge profiles come in lengths of 2500mm.

Zenolite profiles are perfect for high traffic and high impact areas in both residential and commercial applications.
